

LVC/Elizabethtown Site Visit Summary

Many thanks to ACLCP for facilitating a working lunch for 16 staff from both libraries! After participating in the same migration cohort for Ex Libris' Alma for the past 12 months, LVC and Elizabethtown have now entered the post-implementation phase. Conversations during the meeting were wide-ranging. We discussed specifics regarding patron loads, MARC fields, OCLC integration, Primo setup, fulfillment functionality, campus training, and more. We hope to continue our collaborative partnership in the coming months by relying on one another for troubleshooting advice and configuration tips. Thank you again for the opportunity!
