Virtual event planning

What should our Fall conference look like? Virtual meetings – sessions that are more spaced out – just SIG meetings – nothing at all?

Liking the idea of doing some spaced out sessions in a round table style with just a conversation facilitator instead of an official speaker for each one.

ACLCP could purchase a Zoom Pro account or use the organizational account we have with Google.

What criteria will we use going forward regarding decisions about in-person meetings vs. virtual meetings for conferences, executive committee meetings etc..

We need a new treasurer – Bill Rotella is ready to step down – but he is hanging in there until we find someone else.

Lisa, David and Martha are going to reach out to library directors to get a bead on what is going on with the members and what might be appropriate for a Fall meeting for their employees.
